

nēta Retail Ready

- **Saves time**
- **Reduces shelf space**
- **Increases your sales**
- **Reduces stock shrinkage**

How Retail Ready works for you:

Neta's new *Retail Ready* packaging is perfect for in store merchandising. Complete with labelled or prepacked product, the boxes can be opened and put straight on the shelf - not only saving time but also creating a shelf display that is easier to keep tidy.

With a detailed description on the front of the box our *Retail Ready* display modules are designed to make it easier for your staff and customers to identify our products. No special set up or shelving is required - you can choose some or all of our products and simply place them on your existing shelving units. *Retail Ready's* modular system takes up 20% less shelf space than our competitors displays.

Some of the main benefits of *Retail Ready* include:

- **Easy to order**
- **Keeps products tidy**
- **More available shelf space**
- **Saves time merchandising**
- **Easy to identify product**
- **Strong brand presence**
- **Diverse product range**
