Metric Pipe Compression Fittings & Tapping Saddles

nupigeco

Neta-Nupigeco Alliance

Since 2008, Neta Industries has been a proud distributor of NupiGeco metric compression fittings and tapping saddles. Manufactured in Italy, the Neta Nupigeco metric range is AS/NZS4129:2000 WaterMark certified and suited to market segments such as plumbing, heating, water supply, gas, irrigation, chemical and petrochemical. Easy to install and use, UV resistant and durable and now conveniently available to order through Neta.

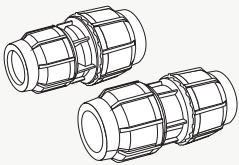

Features & Benefits

- **WaterMark:** WaterMark product certification to AS/NZS4129:2000
- **Versatile:** Black nuts suitable for use on PE pipe (AS/NZS4130) with various coloured stripes or jackets
- **Won't Pull Apart:** Tapered grip ring profile ensures a perfect pipe to fitting & mechanical seal
- **Won't Leak:** 'Lip seal' – not just an 'O' ring & improved sealing performance when used with scratched or out-of-round pipe
- **Easy to Install:** Pipe ends do not need to be chamfered & hassle-free fitting reuse when modifying pipe work
- **Easy to Use:** Grip rings split apart to enable removal from the pipe & lip seal allows for easier insertion of pipe into fitting

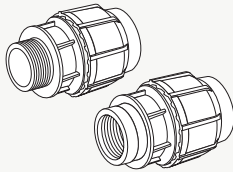

The range of Neta's Nupigeco Metric Fittings Include:

Couplings

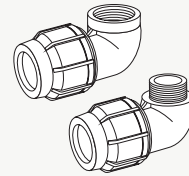

Adaptors

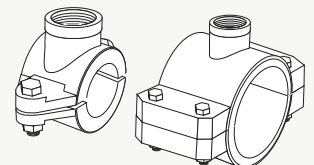

Tees

Elbows

Tapping Saddles

Materials

- Virgin Polypropylene Body
- Acetal Grip Rings
